WORK EXPERIENCE

Frontend Developer

Websultanate Software Technologies Pvt. Ltd

02/2022 - Present

Lucknow, India

Achievements/Tasks

- Develop and implement user interfaces for websites and web applications.
- Create layouts and interfaces that are responsive and work seamlessly across various devices and screen sizes.
- Write clean, maintainable, and efficient code using HTML, CSS, and JavaScript (and related frameworks/libraries like React, Next).
- Collaborate with UI/UX designers to bridge the gap between design vision and technical implementation.
- Optimize web pages for speed and performance, considering factors like page load times and overall user experience.
- Communicate effectively with cross-functional teams, including backend developers, designers, and project managers.
- Successfully delivered 10+ projects, showcasing adept project management skills and ensuring timely completion.

Web Designing - Internship

Slice my page

10/2021 - 01/2022

Lucknow, India

PROJECTS

Referrizer

- The Referrizer website serves as a dynamic platform aimed at enhancing customer engagement and loyalty for businesses. As a frontend developer and designer, I've played a pivotal role in shaping the visual identity and user experience of the website.

Referrizer - Marketplace

- Embark on a journey of innovation and seamless connectivity with Referrizer Marketplace, a groundbreaking project where I played a pivotal role in shaping the digital landscape. As the driving force behind the front-end development, API integration, and the pursuit of pixel-perfect design, I ensured that every aspect of the user interface was not just functional but visually captivating.
